

Soil Constraints on pasture productivity

12–14th February 2019, Launceston Tasmania

CALL FOR PAPERS

This is a great opportunity to present & publish your research to a diverse audience, but there is limited time to submit your abstract. Make sure you don't miss out.

We invite papers under the theme "Soil constraints on pasture productivity" in temperate, tropical, high rainfall zone or mixed-farming regions.

Suggested sub-themes are:

- Fertility
- Biological factors
- Structural and physical issues
- Chemistry
- Other related soil and pasture issues of interest

Papers are invited from authors with expertise and experience within these sub-themes and the regions listed above. Papers from overseas authors, that are relevant to the theme and sub-theme are welcome.

Papers will be selected for either oral presentation or poster presentation, based on quality and content. Abstracts of all papers selected will be included in the symposium proceedings. Authors of selected oral presentations will be invited to submit their manuscripts to Crop and Pasture Science to appear in a special edition. These papers will be required by 1st December 2018 and will be subject to strict deadlines.

For general enquiries about the symposium contact Stuart Kemp +61 437 278 873, stuartkemp@pasturewise.com.au

ABSTRACT DEADLINE

23rd July 2018

Deadline for receipt of full papers

1st December 2018

Papers should identify and verify the issue or problem, demonstrate solutions and likely successes as well as stimulate debate and discussion.

When preparing your abstract please follow the guidelines at www.australiangrassland.org.au

When preparing your full paper please follow the Crop and Pasture Science guidelines for authors at <http://www.publish.csiro.au/cp/forauthors>

Email your abstract to bcullen@unimelb.edu.au
